Twickenham Stadium
Client: Willmott Dixon Interiors

Working with Willmott Dixon Interiors, KpH Deconstruction have completed a Strip Out and Concrete Demolition project on Level 1 and 2 of the existing East Stand hospitality facility at the prestigious Twickenham Stadium. Seating an impressive 82,000 spectators, Twickenham is one of the largest dedicated rugby union venues in the world. Our works enabled the Fit Out of the new build shell and core works to Levels 3, 4, 4A and 5. Strip Out tasks included the removal of Floor; Ceiling; Stud/Blockwork Partitions; redundant M&E Installations; Toilets; Kitchen Facilities; and Façade Glazing.

Crossweys House, Guildford
Client: DTZ Investment Management Ltd

KpH Deconstruction have successfully completed this 6 week Strip Out and Enabling project as Principal Contractor at Crossweys House in Guildford. The site spanned across 5 Floors, including the Roof, and was situated above and adjacent to active High Street Banks. We liaised closely with our neighbours to arrange works during times that caused least disruption, and implemented efficient noise reduction systems (for example, using equipment with low noise

emissions) to minimise noise pollution. The Strip Out works, included the removal of redundant M&E, and required the use of the building car park, which was successfully shared with other tenants/neighbours.
